

LESSON 1. TELL ME ABOUT YOUR EDUCATIONAL BACKGROUND

Word in context

My Educational Background

Education has always been an essential part of my **personal growth and career development**⁽¹⁾. Throughout the years, I have been able to **obtain**⁽²⁾ valuable knowledge, **acquire**⁽³⁾ practical skills, and **cultivate**⁽⁴⁾ a mindset of continuous learning that has shaped my path.

I **graduated from**⁽⁵⁾ high school with strong academic performance, where I received a **certificate**⁽⁶⁾ of merit for **outstanding achievement**⁽⁷⁾ in English and Information Technology. These early experiences **motivated**⁽⁸⁾ me to **pursue**⁽⁹⁾ higher education and deepen my understanding of how technology can be **applied in**⁽¹⁰⁾ business.

Later, I chose to **major**⁽¹¹⁾ in Business Information Systems at university. During this period, I worked hard to **obtain** my **bachelor's degree**⁽¹²⁾, which not only required dedication but also the ability to think critically and **solve problems**⁽¹³⁾ effectively. Through my coursework and projects, I was able to **acquire** essential skills such as **data analysis**⁽¹⁴⁾, project management, and teamwork. These academic experiences allowed me to cultivate **discipline**⁽¹⁵⁾, **responsibility**⁽¹⁶⁾, and **creativity qualities**⁽¹⁷⁾ that continue to benefit me today.

In addition to formal education, I have also attended professional training programs and earned short-term certificates to strengthen my qualifications. These programs helped me **broaden my perspective**⁽¹⁸⁾, **adapt to**⁽¹⁹⁾ new challenges, and **enhance**⁽²⁰⁾ my professional profile.

In conclusion, my educational background represents more than just a list of schools and degrees. It is a **reflection**⁽²¹⁾ of my commitment to lifelong learning, my **willingness**⁽²²⁾ to **embrace**⁽²³⁾ challenges, and my **ambition**⁽²⁴⁾ to contribute to both my profession and society. I strongly believe that education is the foundation upon which one can build a successful and meaningful future.
